RE: Recycling SEP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) project completion report for the recycling Supplemental Environmental Project (SEP).

The completion report describes the metal processing and releasing for reuse activities that U.S. DOE conducted as part of the recycling SEP required by the July 22, 1997, dispute settlement. The report adequately documents the project activities required by the work plan. Therefore, U.S. EPA approves the project completion report.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
